GOLDEN POODU

Thank you, to our dear readers and the Webtoon team for giving us this opportunity to create magic again.

This was our first time ever creating a comic, let alone, a Webtoon. It was perhaps, one of the most challenging projects we've ever worked on, nonetheless, we grew immensely from this experience.

Thank you for your patience with us throughout our learning process.
We hope our journey inspires you to create and share your stories and imagination to the world.
